# Chinese Journal of Physiology

# Statement of Informed Consent

Manuscript title:

Authors (all authors should be listed):

All authors of the manuscript, which is being submitted to *Chinese Journal of Physiology* for consideration of publication, hereby certify that:

1. All experiments on **human** subjects in this study are in accordance with the ethical guidelines of institutional review board or equivalent **and** the Declaration of Helsinki, as revised in 2013. A statement details the above-mentioned must be included in the manuscript.

2. All experiments involving human subjects in the study have been approved by an appropriate institutional review board (IRB)/ethical committee review board or equivalent. The full name of the committee, the approval number and date of approval must be included in the text of the manuscript.

3. For all experiments involving human subjects in the study, informed consent in written form **must** be obtained from all participants or legally authorized representative (in case that subjects are incapable of giving informed consent) and the act must be included in the text of the manuscript.

*Chinese Journal of Physiology* reserves the rights to reject/withdraw manuscripts/articles suspected to have potential serious infringement of ethical principles, even if accepted.
